# Let's Get Started!
Setting Up Cobalt TV using Coax Cable

Connect the Modem

The contents of this bag will replace your existing DSL Modem.

1. Power up the Modem by connecting it to a wall outlet using the included power adapter.

2. Connect the telephone cord from the DSL/telephone jack in the wall to the DSL port in the Modem.

3. Power up the MOCA box by connecting it to a wall outlet using the included power adapter.

4. Connect the Ethernet Cord from LAN port 3 or 4 to the Ethernet port in the MOCA box.

5. Connect the Coax Cable from the coax port in the MOCA box to the coax port in the wall.

6. You have completed the set up for this room! Now take the appropriate white room bag to the first room you would like to set up.
